Dahod, Gujarat, India

PROFESSIONAL SUMMARY

Python Developer & AI/ML Specialist with hands-on experience building data-driven applications, ML models, and enterprise solutions. Proficient in TensorFlow, scikit-learn, Tableau, React.js, and desktop GUI development. Proven track record through internships and freelancing in delivering scalable, intelligent systems for business intelligence, analytics, and automation.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS

AI & Machine Learning: Scikit-learn, TensorFlow, Deep Learning, NLP, Generative AI

Data & Analytics: Pandas, NumPy, Matplotlib, Seaborn, EDA, Power BI, Tableau

Web & Frameworks: React.js, Bootstrap, Tkinter, PyQt5, Streamlit

Databases: MySQL, MongoDB, SQLite

Tools & Platforms: Git, GitHub, VS Code, Jupyter, Google Colab, Netlify, Render, Vercel

PROFESSIONAL EXPERIENCE

Freelance Designer & Developer

2024 – Present

DesignNDeploy (Remote)

- Designed and developed custom portfolio websites and branding solutions using MERN stack
- Built responsive web applications with animations, contact forms, and PDF export functionality
- Delivered 10+ projects with modern UI/UX, ensuring client satisfaction through iterative development

Python Developer Intern

Dec 2024 – May 2025

Stack Industry, Vadodara, Gujarat

- Developed enterprise Inventory Management System using Python, PyQt5, and MySQL with real-time tracking
- Implemented PDF/Excel exports, dynamic forms, and role-based access for 500+ inventory items
- Optimized application performance by 30% through code refactoring and database query optimization
- Collaborated with cross-functional teams following SDLC and Agile methodologies

EDUCATION

AI & ML Specialization (Deep Learning & TensorFlow)

June 2025 – May 2026

NearLearn, Bengaluru | Focus: Machine Learning, Neural Networks, Generative AI

B.Tech in Computer Science & Engineering

June 2022 – May 2025

Parul Institute of Engineering and Technology, Parul University, Vadodara

Diploma in Computer Science & Engineering

June 2019 – May 2022

Parul University, Vadodara

KEY PROJECTS

ResumeAI - Intelligent Resume Analyzer | *React, Node.js, Groq AI, Llama 3.3 70B, NLP, REST API*

- Developed a full-stack AI resume analyzer using **Llama 3.3 70B** via Groq API, providing ATS scoring, skill gap analysis, and career recommendations.
- Implemented NLP-based keyword extraction, interview question generation, and PDF report export; deployed on Vercel and Render.

Fake News AI - Detection System | *Python, Scikit-learn, NLP, TF-IDF, Streamlit, Pandas, NumPy, Joblib, Machine Learning*

- AI-powered fake news detector built with NLP and Machine Learning. Paste any news article to get instant Real/Fake classification with confidence score and key signal words.
- Trained on 44,000+ articles achieving 95%+ accuracy and deployed live on Streamlit Cloud.

Iris Flower Intelligence | *Python, Scikit-learn, Streamlit, Machine Learning*

- Developed a production-style ML dashboard to classify Iris flower species using KNN and Logistic Regression
- Added model comparison, prediction confidence, and confusion matrix for performance evaluation
- Built an interactive Streamlit UI with analytics, explainability, and exportable prediction history

Sales Performance Analysis Dashboard | *Tableau, Business Intelligence, KPI Analysis*

- Designed interactive BI dashboard analyzing sales KPIs, trends, and performance across products, customers, locations, and employees
- Created calculated metrics with global filters and intuitive navigation enabling data-driven decision making
- Implemented dynamic visualizations for revenue tracking, identifying growth opportunities and performance gaps

CERTIFICATIONS & PUBLICATIONS

Data Analytics with Python – Professional Certification | **Programming for Everybody (Python)** – Coursera
Career Edge – Young Professional – Industry Certification | **Research Paper** – Inventory Management System Using PyQt5
